Detailed Specifications

The 16GB iPad with Retina Display and Wi-Fi (4th Gen, Black) from Apple features an incredibly thin design and even more power than its predecessors. The improved Retina display contains 4 times more pixels than the iPad 2 for outstanding clarity and sharpness with both text and images. A newly designed dual-core A6X chip with quad-core graphics provides a great deal of processing power and speed to compensate for the increase in resolution and delivers the same responsive feeling of the former models.

iOS and iCloud provide the robust backbone for this device to run off of and support the seamless multi-touch interface. Within the iOS system, App Store hosts a plethora of iPad-specific apps designed for the vivid 9.7" Retina display. iCloud functions as a wireless service for you to keep all of your devices synced and maintain the content throughout them

Features:

- 9.7" LED Multi-Touch IPS Retina Display
- 2048 x 1536 Native Resolution
- Dual-Core Apple A6X Processor
- 802.11a/b/g/n Wi-Fi, Bluetooth 4.0
- iOS and iCloud for Functionality

Display	9.7" LED Multi-Touch IPS Retina Display
Resolution	2048 x 1536
Processor	Apple A6X Dual-Core
Storage	Flash 16GB
Sensors	Gyro, Accelerator, Ambient Light Sensor
Ports	1x Lightning
Audio	Integrated Speaker, Integrated Microphone, 1x 1/8" (3.5 mm) Headphone
Communications	Wi-Fi (802.11a/b/g/n), Bluetooth 4.0 technology
Camera	Front: 1.2 MP Back: 5 MP
Keyboard	Virtual
Battery	Built-In Lithium-Polymer Providing up to 10 Hours per Charge (16Wh)
Dimensions	7.31 x 9.5 x 0.3 inches (WxHxD)
Weight	1.44 lbs
